TECHNICAL DATA SHEET

RINSE AID 560

Rinse Aid₅₆₀ is a completely biodegradable rinse agent. It's highly concentrated blend of wetting agents helps provide sheeting agent to enhance water removal and reduce water spotting. When used as directed, it lowers the surface tension of the rinse water allowing it to dry spot free. Rinse Aid₅₆₀ has a long lasting surfactant system that can be used at high dilution ratios. Safe to use on aluminum, stainless steel, glass, plastic, paint and most other applications. Ideal for automotive detail shops or car washes. Rinse Aid₅₆₀ can be used as a standalone product or added to any Hydrus transportation products. When using as a spot free rinse combination add one quart per 55-gallons of detergent. Ask about the opportunity to add a fragrance for your needs.
